September 2014

Dear George,

For the last 25 years, WindReach Farm has provided a fully accessible farming environment with specialized features and programs developed specifically to serve the needs of those with intellectual, mental health and/or physical disabilities, and their families, to more than 20,000 people annually. WindReach Farm is proud to be a unique, barrier-free facility for all people. A true trailblazer and leader, WindReach Farm continues its progressive purpose to provide unique services and quality programs to a demographic of individuals for whom there are limited offerings in the community.

On September 6, 2014, WindReach Farm Foundation hosted the 25th Anniversary Autumn's Harvest Dinner & Barn Dance and as a charity which receives no core Government funding, 25 years of changing lives is pretty remarkable! This special milestone focused on the gentle animals that create a tender bond with more than 22,000 visitors each and every year at WindReach Farm. The evening included Terry Johnston as our host, games, a Founder's Tribute to Sandy Mitchell presented by Justin Hines, great food, and of course, the dancing, which our guests always consider a highlight of the evening.

We are pleased to announce that this year was the highest grossing Autumn's Harvest we have had at the farm and we exceeded our goal raising a total of \$30,000! Because of Gervais' contribution and commitment to fulfilling the charitable vision of WindReach Farm, many lives will be impacted!

Thank you, again, for your friendship and support of WindReach Farm and WindReach Farm Foundation!

Kind regards,

Stephanie Mann
Executive Director, WindReach Farm Foundation
